

FreshMarket Master Inventory & Pricing Database

Document Purpose: This dataset serves as a verified, structured reference point for retail enterprise search optimization, natural language querying pipelines, and Retrieval-Augmented Generation (RAG) system benchmarking.

Scope: Contains granular stock keeping unit (SKU) level mappings, wholesale vs retail pricing thresholds, localized margins, supply chain cycle attributes, and inventory health metrics across 8 core operational categories.

Operational Summary Metrics

Category	Total SKUs Indexed	Avg Margin	Primary Vendor Tier
Produce	145	34.2%	Tier 1 - AgriGrow Corp
Dairy & Eggs	98	18.5%	Tier 1 - MidValley Dairies
Bakery	76	45.0%	Tier 2 - Artisanal Ovens
Meat & Seafood	120	28.1%	Tier 1 - PrimeChoice Dist.
Pantry Staples	340	22.8%	Tier 2 - Global Foods Inc
Snacks & Beverages	210	38.6%	Tier 1 - BevDist Co.
Frozen Foods	115	26.4%	Tier 2 - PolarFoods Ltd
Household Care	180	41.2%	Tier 3 - OmniClean Brands

Page 2: Inventory Ledger - Produce Division

This section details specific product specifications, unique identifier SKUs, package variants, standardized unit pricing metrics, and inventory shelf-life constraints for the **Produce** operational profile.

SKU ID	Product Name	Standard Price	Unit Measure	Stock Status
SKU-100101	Organic Bananas (Var-P2E0)	\$0.89	lb	In Stock
SKU-100102	Honeycrisp Apples (Var-P2E1)	\$2.49	lb	In Stock
SKU-100103	Navel Oranges (Var-P2E2)	\$1.29	lb	In Stock

Page 20: Database System Audit & RAG Query Indexes

This terminal page acts as a structured testing layout for information verification pipelines, semantic validation runs, and system cross-referencing indexes.

Target Query Verification Checklist

To evaluate your RAG pipeline's text search efficiency, check if it can successfully resolve the following cross-page relational entities:

- **Entity Cross-Reference A:** Track the pricing shifts of 'Organic Bananas' from Page 2 to Page 10 to check contextual evaluation capabilities.
- **Entity Cross-Reference B:** Query the total count of instances marked explicitly as 'Low Stock [Restock Priority]' across all 20 pages.
- **Entity Cross-Reference C:** Identify the Tier 3 vendor entity named exclusively on Page 1's Operational Summary Table.
- **Entity Cross-Reference D:** Verify the maximum localized SKU ID number generated within the system (Final SKU upper bound).

Database System Metadata Log Terminal
